

## ENJOY THE BENEFITS OF CRYOTHERAPY WITH ZERO DISCOMFORT!

### ALPHA COOLING PROFESSIONAL®

#### What is ACP?

Alpha Cooling Professional® combines blood cooling through the palms with a defined negative pressure. This allows slightly cooler blood to enter the circulation while preventing the constriction of small capillary vessels.

#### EASY & SAFE

**Place your hands inside and simply enjoy for 2 minutes.**

The body's natural response to this process creates the effect.

Originally, the first device was developed to enhance performance and accelerate recovery in sports. Users consistently report a significant improvement in overall well-being.
